

“Our motto is: “The most possible qualitative service in the shortest period of time” and Longopac honors this .”

REFERENCE CASE: Riga 1st Hospital

Riga 1st hospital is a multidisciplinary ambulatory medical institution with a large day hospital with highly qualified professionals of various medical fields.

We offer wide and up-to-date diagnostic, therapeutic and rehabilitation, optional services both at the health center and at the day hospital.

Riga 1st hospital has concluded an agreement with the Health Payment Centre, “therefore we offer services within the state program as well as for additional payment. It is one of the first and oldest hospitals in the city”.

On September 29th 2014 a new Operations Department started it’s work after reconstruction.

“While a new department was equipped we decided to invest in the Longopac bag system, as a step towards future challenges and to provide good hygienic service for our patients. We observed that they are not only practical and comfortable to use for us but also very economical. We are highly satisfied with this investment! says Zane Ticmane, Head of Operations Department at Riga 1st Hospital, as our motto is: The most possible qualitative service in the shortest period of time” and Longopac honours this”.

RIGA 1ST HOSPITAL:

Riga 1st hospital is one of the oldest hospitals in Riga, founded in 1803.

Today there are 730 employees working at the hospital.
